A 1932 catalogue with description of varieties will be sent on request while they last.

Whatever part of the country your bulbs come from this spring, you will be wise to treat them to a bath of corrosive sublimate and water. One ounce of powder to eight gallons of water--or one corrosive sublimate tablet to one pint of water. Be careful to use wood or enamel containers.

Prices of perennials and rock garden plants, of which I have a large, up-to-date assortment, will be lower this spring.

AND -- DON'T FORGET THE PEONIES IN JUNE !!
